

"12 bar" external area

Characteristics :

- Maximum Thermal Input : 2 MW
- Size : 700 m²
- Type of fuel : Natural Gas, H₂, syngas ...
- Type of oxidant : Air, O₂

Cogeneration 400 kWe
Turbin helicopter equipped with
silencer

Main profit :

- easy to implement external R&D pilots
- dedicated facilities : 12 bar pipe,...

THT capture with activated charcoal
1,5 MW – 12 bar
(tested at 70 bar)
